Subject: Science Park

Dear Professor Borysiewicz,

When planning application was made for an equestrian centre on land opposite to the College library and adjacent to the Carr Lecture Theatre, Imperial opposed this on the grounds that it would increase congestion in the village and contribute to increased light pollution. Could you please comment on the impact on congestion in Wye from building a Science Park and explain why Imperial's view on the issue of congestion in the village has now apparently changed.

With best wishes,

Dylan Bradley
