Subject: Wye Development re Manufacturing

The Kentish Express, who attended the meeting on Thursday reports (and I quote)"But the panel were quick to stress there would be no smoke stacks and no industry" and further that when questioned on whether there was any prospect of manufacturing and industry on the site, Imperial's Brooks Wilson stated "Factories next to Wye? No Sir No Sir, No Sir" Do the College stand by these reported statements and are you (along with ABC and KCC) willing to confirm categorically (and unambiguously) that there will be no manufacturing or industry in or next to Wye?
