Dear Mr Green

Thank you for your reply. I am putting together a circular for distribution throughout the village and beyond and would appreciate your further comments:-

-Have you hard evidence that Imperial have actively sought interest from other academic institutions for both land or non-land based courses?

- You know that the Imperial land is agricultural and in a designated Area of Outstanding Natural Beauty. Are there any circumstances under which you could envisage agreeing with commercial/residential taking place on even a few acres of it?

- You mention the creation of huge opportunities for Wye and the surrounding areas. It is important that Wye Residents are aware of the benefits you allude to. Would you kindly expand. (Certainly the vast majority here struggle to find even the slightest ray of sunshine and are in a state of shock and depression.)

-We feel angry but above all sad that we are left to fight off this challenge to our future without, seemingly, the wholehearted support of our elected representatives. It would be reassuring to report that we do indeed have your full backing?

-If you feel unable to give such an undertaking at this time would you please suggest to whom we may turn to for this representation?
