Subject: Comment on Wye Science Park meeting

Dear Sir,

There are of course many things that could be said about the meeting to discuss the proposed Science Park in Wye and its conduct, but I feel that when Professor Borysiewicz used the phrase "I'll use words you can understand" the attitude of Imperial to the residents of Wye became apparent. It was also revealing that a different (more detailed) presentation was made to the Parish Council and that more detailed presentations have apparently also been made to Imperial staff at Wye. In PR terms it would serve Imperial better not to appear duplicitous and perhaps even to have a less arrogant spokesman for their ideas.

Yours faithfully,

Dr Dylan Bradley
